Product Activation Instructions

Below are step-by-step instructions that will assist you in activating all of our software products. This is a one-time process and should only take a few minutes to complete. To activate the software you must be connected to the Internet. If the computer you are using is not connected to the Internet, please contact us by telephone or e-mail us for activation instructions.

Step 1 – Click on the URL shown in the License Manager screen to the right. As soon as you select the URL, a web page will open and you will then enter the required information to complete the activation process.

Step 2 – Enter your Serial Number in the space provided and completely fill out the Activation Request Form. The fields in red are required. Please fill in the data accurately as this information will be needed to reactivate the software if you ever need to move the software to a different computer.

When the form is completed, click the "Request Activation Code" button at the bottom of the page.

Note: the Request Number is unique to your computer and is filled in automatically and cannot be altered.

Step 3 - If the information is correct and the serial number is valid, you will be given an activation code. A copy of your activation code and serial number will also be sent by email to the address provided in the form. Please keep this e-mail for future reference as you will need this information for reinstalling the software.
